

PANTHER PRINTS

JANUARY 2025

Happy New Year!

Let's make it a great one!

Welcome back, Pathfinder students! This year brings exciting opportunities to explore interests, build skills, and shape your future. From career exploration to hands-on projects, we're here to support you every step of the way. Let's make it a year of growth and achievement—together!

STUDENT LIFE

School Clubs

We're so excited that our student clubs for grades 6-11 are in full force! Clubs meet on Thursdays during students' scheduled advisory time. Students are welcome to participate in a single club or alternate from week to week! From dissecting music lyrics, spreading kindness or learning how to bake scones, our 23 club options are a great way to connect with others!

What are families saying about Pathfinder?

"I just cannot say enough about the communication between my grandson and the teachers. They respond very quickly and they are definitely there to guide him in his way."

"I am Thankful for the messages I received to help me keep my student on track."

"I'm just so grateful that we found Pathfinder Career Academy, my daughter is so much happier now."

Important Dates

- February 12th - Community Day
- February 17th - President's Day, No School

**February is CTE MONTH! Look out on our social media & Canvas for fun & educational activities*

ALL month long!

CAREER TECH EDUCATION

We're thrilled to kick off the second semester with our CTE and CBI students! This term, they'll work toward earning OSHA 10, CPR, and First Aid certifications, among others based off student interest! Our middle schoolers are diving into Kidvation Global and Franklin Covey's 7 Habits for Highly Effective Teens, earning them a leadership credential before starting high school. Plus, exciting job shadowing opportunities are being planned for our high school students. We are excited to make it a great semester!

Kidvation
Global

Virtual Field Trip

Community Day

Students tuned in to explore energy transformation and STEM careers in "Re-powering the Future!" -followed by a tour of the Itron Innovation Center to see how technology drives sustainable solutions and tackles challenges like safety & wildlife protection!

Counselor's Corner

As we begin the 2nd semester, high school students should monitor their grades and reach out to your counselors with any question or concerns.

- Join us Feb. 14 for Future Friday Discussion
- OST will be April 1-April 17
- Our Credit Recovery Program has started. Please attend your live session.

Thanks!

THANK YOU JANUARY GUEST SPEAKERS

Nick Ketchum, Veteran & Microbiologist

Katie Derr, Senior Sales Executive
